

Tame the Chaos in Third-Party Risk Management

ViClarity®

Disconnected vendor management processes, manual compliance checks and scattered documentation expose your organization to regulatory risk.

Typical Problems

- + Scattered vendor contracts
- + Inconsistent risk reviews
- + Missed renewal deadlines
- + Manual compliance tracking

Vendor Oversight Breakdown

- + Regulatory exposure
- + Audit or exam findings
- + Operational Inefficiencies
- + Lack of accountability

The Solution

ViClarity
Software

CURATED CYBER
A vCISO FIRM | TPRM Expertise

Vendor Lifecycle Assurance

The combination of **vendor management software + expert managed service** ensures your program is consistent, auditable and scalable.

The Flexible Delivery Model

Choose the level of support that fits your organization:

Self Managed

Run your program internally using ViClarity software, with onboarding and set-up support

Supported

Get help with implementation, template creation and risk assessment while retaining day-to-day control

Fully Managed

Let us operate your program on your behalf, with everything housed, tracked and reported in the ViClarity platform

The Outcome

Clear accountability

Reduced operational burden

Compliant & controlled TPRM program

Onboard → Assess → Monitor

Vendor Lifecycle Assurance

Vendor management, simplified.
