

Tame the Chaos in Third-Party Risk Management

ViClarity®

Disconnected vendor management processes, manual compliance checks and scattered documentation expose your organization to regulatory risk.

Typical Problems

- + Scattered vendor contracts
- + Inconsistent risk reviews
- + Missed renewal deadlines
- + Manual compliance tracking

Vendor Oversight Breakdown

- + Regulatory exposure
- + Audit or exam findings
- + Operational Inefficiencies
- + Lack of accountability

The Solution

ViClarity®
Software

CURATED CYBER
A vCISO FIRM | TPRM Expertise

Vendor Lifecycle Assurance

The combination of **vendor management software + expert managed service** ensures your program is consistent, auditable and scalable.

The Flexible Delivery Model

Choose the level of support that fits your organization:

Self Managed Platform + Supported Setup

Run your program independently using the ViClarity vendor management software solution including best practice templates, with onboarding and set-up support from Curated Cyber to help you get started

Due Diligence Jump Start + Self-Managed Platform

Let the Curated Cyber team assist with due diligence and risk assessments for critical vendors, then take day-to-day control of your vendor management program using the ViClarity software solution

Program Oversight, Training & Hand-Off

Collaborate with Curated Cyber to build and implement your new and improved vendor management program in the ViClarity platform, then they'll train your team to carry it out successfully going forward

The Outcome

Clear accountability

Reduced operational burden

Compliant & controlled TPRM program

Onboard → Assess → Monitor

Vendor Lifecycle Assurance

Vendor management, simplified.
